SUPPLEMENTARY INFORMATION

EXTRA CURRICULAR ACTIVITIES

- I was an office bearer in CRRESCENDO (Crrescendo is our intra-college cultural festival).
- I was an executive member of INCIDENT 09 (Incident is our inter-college cultural festival)
- I am an executive member of MANAGEMENT FORUM which organises activities concerning management for students.
- I volunteered as a helper for a Children's Carnival - 2008 organised by our department at Pilikula.
- I participated in the group dance category for CRRESCENDO 09 where my team won first place.
- I like playing badminton, the guitar, piano and I enjoy ballroom dancing and take an active part in cultural and sports activities in college.

ABOUT MYSELF

Apart from my technical skills, i have good communication and orgranizational skills. I work diligently to achieve my goals and set my mind to achieving the task at hand. I constantly challenge myself to improve the standard of my work. I am sociable and enjoy working with different people. I have an optimistic and enthusiastic personality. I have a keen thirst for knowledge and believe in learning something new everyday.

CO-CURRICULAR ACTIVITIES

- I completed an internship at Mphasis where I developed a JAVA based client simulator for integrated testing of a middleware messaging application for a Fortune 500 bank.
- I developed a graphics editor using C language and Visual Basic.
- I developed a medical database showing a list of various diseases and their symptoms using Oracle 10g as the backend and PHP as the frontend. The medical database included features such as login, search, user comments, etc.
- I developed a SMTP and POP3 protocol mailing agent simulator using JAVA.
- I developed a graphics editor using C language and Visual Basic.
- I developed a tic tac toe program.
- I analysed traffic congestion of vehicular ad-hoc networks using NCTUns.
- I worked on assigments to develop websites using .net framework, mssql database and google map programming.
- I am currently working classification of remote sensing images using rough set theory and granular computing .
